

ForcePro, Inc.

Trauma Care Management Course

July 26- 27 2019

San Francisco Bay Area, CA

ForcePro, Inc. is a training and consulting corporation providing clients with up to date training, based on current lessons learned within the Special Operations Forces (SOF) community. It is through that experience that it is able to deliver unique, relevant training to it's clients. This course is open to all first responders (local/federal law enforcement, fire and paramedics) and intended for all levels of experience and education. *NO PRE-REQUISITES.*

This 2-day course is based on the fundamentals of Tactical Combat Casualty Care (TCCC) in current use by the U.S. Military, with a focus on Law Enforcement and EMS Personnel. Participants will be exposed to a maximum application of trauma management techniques, utilizing live tissue and stress induced scenarios.

Topics covered will include: Considerations for utilization & planning of Tactical Trauma Management (TTM), casualty evacuation techniques, Individual First Aid Kit (IFAK) contents and application, phases of care based on tactical scenarios, treatments and procedures for various traumatic injuries and violence-induced wounds, casualty assessment and prioritization, and response to a mass casualty event.

Upon completion of this course, students will be able to provide initial, life-saving treatments to casualties who might not survive without the intervention of first responders.
